NOTICE

2009/10 KELSO CITYWIDE OVERLAY PROJECT

Dear Community Resident,

Beginning on Monday June 28th, Lakeside Industries of Longview, WA, under contract to the City of Kelso, will begin a paving project to improve existing road surfaces in your neighborhood. Inspection, marking and other preparatory work has already begun. The work will be conducted during daylight hours and is scheduled to be finished by August 31st. The project will include pulverization, cement treatment of the base and paving of the streets marked on the accompanying page.

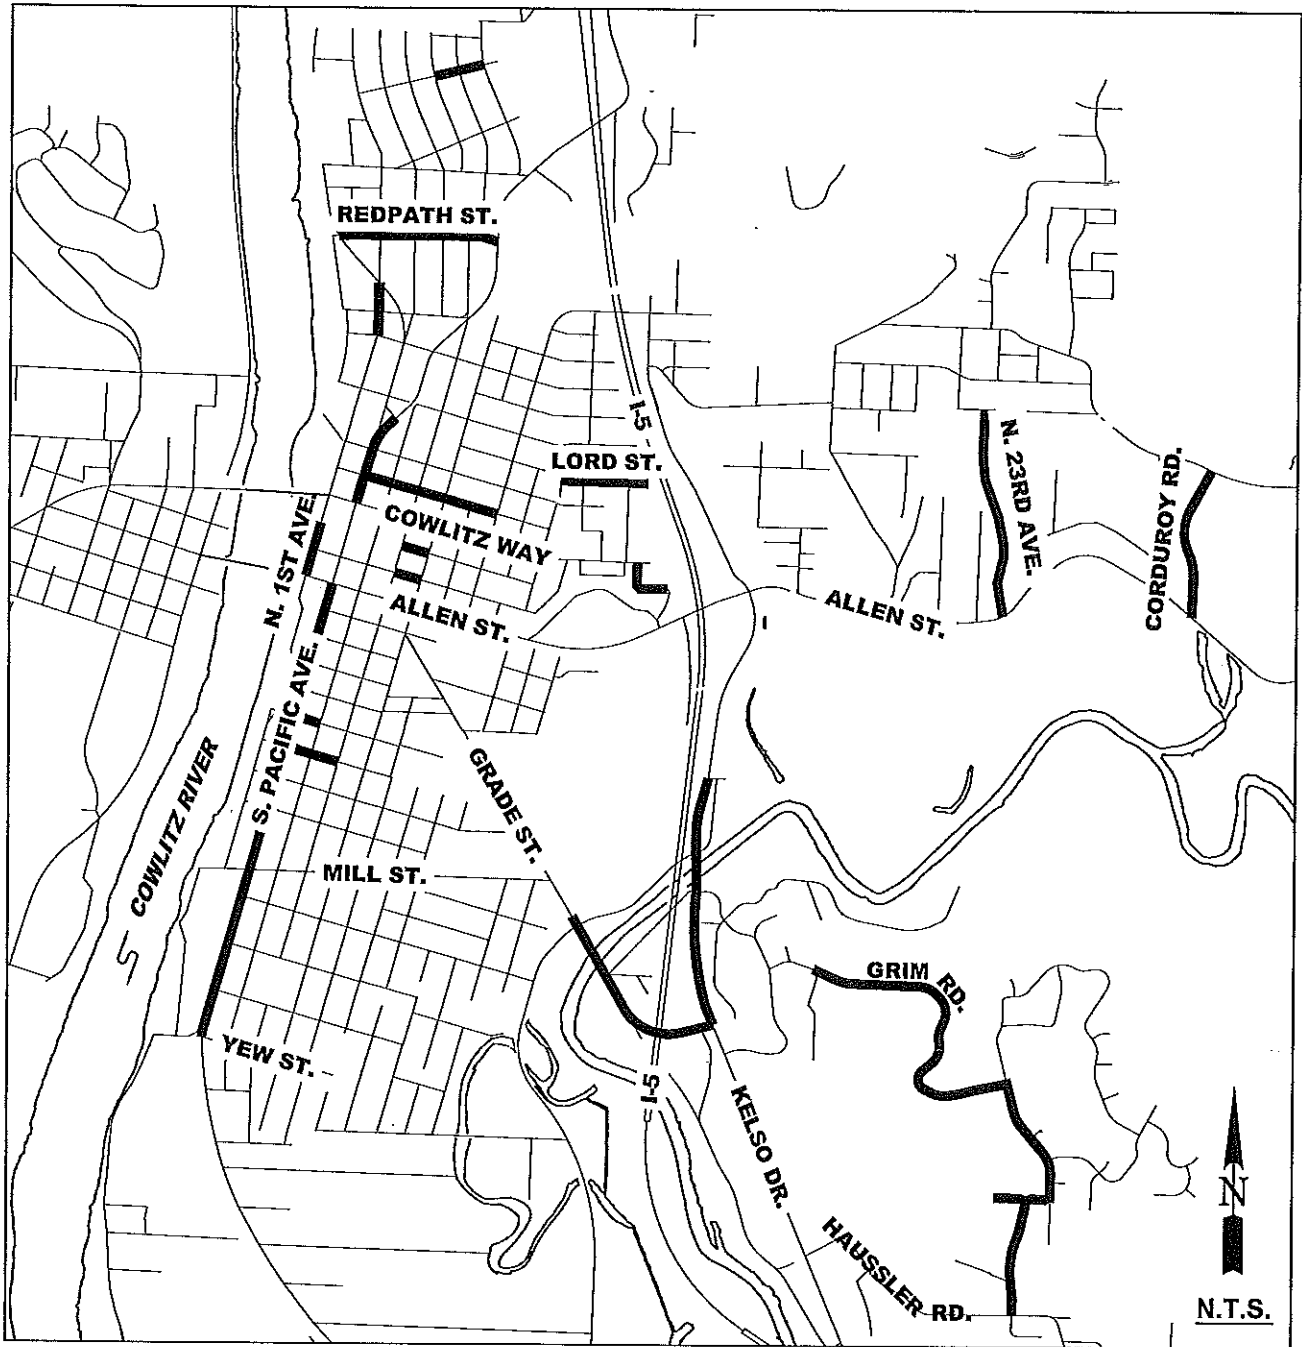

This work will create disruptions to the flow of traffic. At times, detours will be used to redirect traffic around or through the work area. Seven streets (Lewis, Redpath, Crawford, Maple, Alder, Grimm Road and Corduroy Road to the extents shown on the enclosed map) will be in a state of disrepair for approximately 6 weeks. Grimm Road from the City limits to Banyon Drive will be closed during that time. As a local resident, every reasonable effort will be made to allow you access to your destination.

Future notices will be given to remove all vehicles from the street on the specific dates when work is to be done. Please watch for door knob hangers and street signs in the work area. The streets must be completely clear of vehicles during these scheduled dates to effectively complete the street repairs. Any vehicles not cleared may be subject to towing and impound at the owners expense.

We realize this is an inconvenience and we appreciate your cooperation.
